Mr. Whitwell:

Goldrich Mining is covered by the placer mining general permit (GP). The permit number is AKG-37-0000 and can be found on ADEC's website at

<http://dec.alaska.gov/Applications/Water/WaterPermitSearch/Detail.aspx?id=8910&v=1>

Goldrich's facility specific number under this GP is AKG-37-0810. The facility did not apply for a mixing zone so the conditions in the permit on-line would apply directly to the facility.

The ADEC contact for placer mining is Nick Dallman. His email is nicholas.dallman@alaska.gov and his phone number is (907) 451-2142.

Michael Lidgard

Mr Lidgard

I am trying to find info on an NPDES permit issued to Goldrich Mining in the Chandalar lake area of interior Alaska, I am the Tribal Environmental Director for The Native Village of Venetie, which is directly downstream from the mining site. I looked on the Alaska DEC site and the site says the permit is not available. We need to know what permits have been issued for this mine area, any assistance you can offer would be greatly appreciated,

thank you for your time and assistance,

Respectfully

Lance Whitwell
